DETAILED ACTION

The receipt of the response filed on March 14, 2005 is acknowledged.

Upon further review and consideration, the following rejection is applied.

Reissue Applications

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The declaration state as the at least one error that "Such inoperativeness includes the failure to prosecute and obtain claims commensurate with the scope of new claims 18-22 added by this reissue" and "It was an error to fail to include in the above-identified patent, claims that are directed to an optical fiber connector assembly including an adapter having an adapter housing with two sleeves for receiving two ferrules of a connector and where the adapter housing includes an outer perimeter defining an SC footprint". Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. Pursuant to MPEP 1414 (II) (B) and (c), a statement of " ... failure to include a claim directed to ..." and then presenting a newly added claim, is not considered to be a sufficient error statement since applicant has not pointed out what the other claims lacked that the newly added claim has, or vice versa. Thus, the declaration fails to identify at least one specific error sufficient to support reissue of the patent.

Claims 1-22 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

Art Unit: 2874

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Claims 1-22 are allowed over the prior art of record.

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,971,625 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
